DOCUMENTS CONSIDERED TO BE RELEVANT			CLASSIFICATION OF THE APPLICATION (Int.Cl.7)
Category	Citation of document with indication, where appropriate, of relevant passages	Relevant to claim	
A	KIM, S. H. ET AL: "Decreased levels of ARPP-19 and PKA in brains of Down syndrome and Alzheimer's disease" J NEURAL TRANSM, no. 61, 2001, pages 263-272, XP001117653 * abstract * -----	1-26	
			TECHNICAL FIELDS SEARCHED (Int.Cl.7)

Although claim 22 is directed to a method of treatment of the human/animal body (Article 52(4) EPC), the search has been carried out and based on the alleged effects of the compound/composition.

Claim(s) searched completely:
1-20, 23-26

Claim(s) searched incompletely:
22

Claim(s) not searched:
21

Reason for the limitation of the search:

Present claim 21 relates to an extremely large number of possible products (kits).

Support within the meaning of Article 84 EPC and disclosure within the meaning of Article 83 EPC is not to be found, however, for the kit claimed. In the present case, the claims so lack support, and the application so lacks disclosure, that a meaningful search over the claimed scope is impossible, as the kit components are defined in terms of their function and no example is given of such reagents.
